

23 August 2011

**Dear Entrants,**

Manfeild are pleased to be able to offer additional covered pitting at the 2011 MG Classic race meeting.

The new Manfeild Stadium will be available for competitors wanting covered and secure pit space on the rolled arena surface. This surface is multi-use and is rolled flat for events such as the recent PN Hotrod Club annual swap meet and the 4 & Rotary Jamboree. The details are:

- Each site is 6m x 3m
- Each site will have access to power
- A trailer park for those taking space will be located between the stadium and Kawa Kawa Road
- Service vehicle parking will be in the car park between the stadium and the circuit
- Security and fire marshals will be on site
- The cost is \$100 per site for the entire event (including Friday)

A car show for the public will be held on the outside of the pitting area (clear of teams and race cars) and the stadium will be a hive of activity. The space will provide a very affordable pitting option that guarantees shelter from weather extremes and easy access to both enthusiast and fellow competitors.

All bookings are to be made via the Manfeild office on 06 323 7444 and paid for prior to the event.

The Manfeild Team

## Terms of stadium pitting

- Fuel must be stored in appropriate containers
- Fuel containers must be closed when not in use
- Fuel cannot be stored in the stadium overnight
- No smoking is permitted in the stadium
- Power will be supplied but competitors must provide their own extension leads and multi box
- Pit sites must be booked and paid for prior to the event
- All care must taken to minimise oil spilled onto the ground
- A tarpaulin would be recommended

---
